LIQUID DROPLETS FROM A GAS STREAM**

Confirmation No. 7852

Our Docket : RR-624 PCT/US

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

INFORMATION DISCLOSURE CERTIFICATION STATEMENT

Sir:

This Information Disclosure Statement (“IDS”) is in partial response to the USPTO Office Action of November 24, 2009. The IDS lists the 1997 Weingarten non-patent literature reference, which was supplied with the IDS filed August 8, 2009, but inadvertently omitted from the listing of references on the IDS. A complete copy of the 1997 Weingarten article is enclosed with the IDS. In addition, the other non-patent literature document by Arpandi is also cited therein. Netherlands Publication NL 1,002,534 published September 8, 1997 is also enclosed.

With respect to the Netherlands publication, the PCT search report in the PCT application upon which the subject U.S. application is based cited NL 1,002,543. As this document was not in English, corresponding European patent application EP 0794649 was provided.

However, upon further study, it was noted that the PCT Search Report contained a typographical error with respect to the Netherlands publication. As a result, the correct reference, Netherlands Publication 1,002,534, has been provided with an English abstract.

If any fees are needed for the entry of this paper and
consideration of the Information Disclosure Statement, please charge our
Deposit Account No. 18-1743.

Dated: February 9, 2010
